WELCOME TO THE SAUDI BRAND GUIDELINES.

THESE GUIDELINES EXIST TO MAKE US LOOK CONSISTENTLY GOOD!
FOLLOW THESE GUIDELINES AS YOU
CREATE MARKETING MATERIALS, INTERNAL
AND EXTERNAL COMMUNICATIONS.

THE SAUDI DESIGN FOUNDATION

Branding is more than a logo. It is a design scheme made up of a number of core elements and guiding principles that combine to create a distinctive look and feel that is immediately recognisable as The Saudi.

This guide will help to familiarise you with the core brand elements to assist you in designing and producing dynamic and powerful communications with a degree of flexibility.

If unsure, just ask us at brand@microvera.co.uk

WHAT WE'RE ABOUT

This new brand identity is all about The Saudi.

The Saudi is an online newsletter that focuses on Saudi Arabian and Middle Eastern breaking news and events. The Saudi's main platform is online via a Wordpress website. The Saudi also has multiple social media pages where the design and logo stays consistent.

Branding is important for as it allows readers to associate the logo with the name "The Saudi".

IDENTITY

THE LOGO

THE LOGO

The Saudi logo is the most visible element of their identity—a universal signature across The Saudi.

The same version is used in print and on screen. It’s simple and easy to understand in two languages (Arabic and English).

The logo is simple and must always be in Arabic and English. The main logo is written in Arabic text which incorporates a fountain pen tip. Although the logo is simple, the following guidelines must be adhered to in order to not ruin the brand’s image

EVERYONE NEEDS A LITTLE PERSONAL SPACE

LOGO CLEAR SPACE

To ensure that our signature versions are clearly visible in all applications, surround them with sufficient clear space – free of type, graphics, and other elements that might cause visual clutter—to maximize the recognition and impact of our identity. To ensure the integrity and legibility of the logo, the area directly surrounding them should be protected.

When the logotype or full name is used, a clear space of %50 of the symbol’s height should be maintained. In special circumstances when a %50 clear zone isn’t available or possible, use the second option of %25 clear space.

%50 Clear space

EVERYTHING IN ITS RIGHT PLACE

LOGO CLEAR SPACE

We like to avoid placing the logo smack dab in the middle of an area.

On any given format—landscape or vertical—the preferred logo placement is in any corner position, or center aligned at the right or left.

GOOD THINGS COME IN
SMALL SIZES

MINIMUM LOGO SIZE

There are no predetermined sizes for the The Saudi logo. Scale and proportion should be determined by the available space, aesthetics, function and visibility. There is no pre-set maximum size for the logo. For print, the minimum size is 0.8". For digital uses the minimum size for the standard logo is 100 pixels. 100 pixels is the smallest size apart from when using an ICO. There is a specific file for ICO's which is a 16px tall file.

LAWYERS HAPPY

USING THE REGISTERED LOGO

To protect our logo we use a Registered symbol alongside our logo. This is used in all major outward-facing brand communications, such as our website and advertising. For internal communications, and branded promotional items—such as notepads, T-shirts, water bottles—the standard logo can be used.

The registered logo has been created in two sizes - large and small. The large scale version will cover most uses, and the small scale version is intended mainly for use on the web.

PICK A COLOR
ANY COLOR

Our logo or background color may be any color within the Saudi color palette. Contrast is important—use a white logo on color backgrounds and a color logo on white backgrounds.

See pages 22 & 21 for detailed color information and color values.

Color logo on white backgrounds

Always use a gray logotype

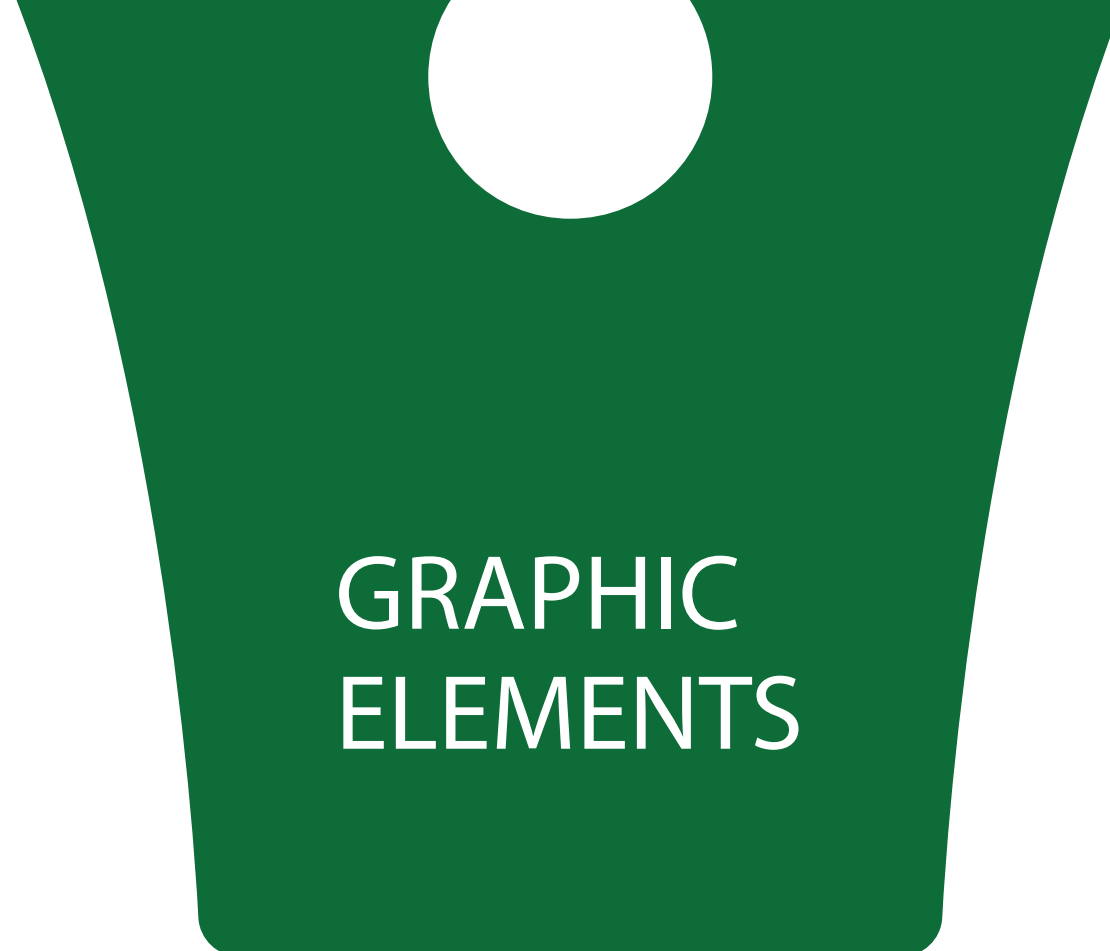

In certain instances, such as on the Microvera website, a vibrant color logo may not be appropriate, and may potentially clash with other colors. In these instances, an all gray logo can be used.

When using the logo on a white background, the logotype should always appear in gray, never in a vibrant color, and never in solid black.

White logo on color backgrounds

When using the logo on a color background, both the symbol and logotype should appear white. The logotype should never appear in gray.

Up until this page, you've been seeing a black and green logo. The Saudi logo can appear in one of six vibrant colours. And there's a dark grey colour for our typography, and for instances where a colour logo is not appropriate.

Please note, when printing certain colours onto coated or uncoated paper, the Pantone colour specified differs. Please refer to the colour breakdowns on this page.
